## **ABOUT US**

Established in 1989, Oceanic Seagull Maritime has, over the years, garnered a reputation for being one of South Africa's fastest growing ships agencies and has established a great deal of expertise, offering a vast array of services.

Operating in all main ports in South Africa, namely Cape Town, Saldanha Bay, Port Elizabeth, Durban and Richard's Bay, Oceanic Seagull Maritime's all-encompassing network of professional maritime-related suppliers, competent staff and ability to efficiently organize the necessary services, has allowed the company to widen its client-base on a global platform. Oceanic Seagull Maritime provides its clients with exceptional and high-quality services, at incredibly competitive rates.

Bunker Calls

Crew Changes

Cash to Master

Underwater Services

Change of Ownership / Management

# OFF-PORT LIMITS

South Africa's strategic geographical position allows us to be able to offer a multitude of services to vessels whilst passing our coastline.

Efficient Off-port limits services have become vital due to an increase in the number of vessels and the size of vessels

## ADVANTAGES:

- There are no anchorage or port costs applicable for Off-port limits, the only costs are those related to the services conducted for the vessel (ie: the launch) and the agency fee.
- The swift transportation of spares, crew, provisions and stores 24 hours a day, seven days a week.
- Medical care can be provided to crew and in severe medical cases, medical evacuations can be conducted via launch boat or helicopter.
- Off-port limits services can be conducted in all major ports, therefore reducing the need for the vessel to deviate from its intended route.
- Off-port limits, vessels do not need to anchor and need to only drift, thereby saving both time and money.

# LOGISTICS & SPARES DIVISION

Our dedicated customs clearance and logistics division offers comprehensive clearing and forwarding solutions and delivery on deck for ships spares in major ports of South Africa.

## WHAT WE OFFER:

- Competitive fixed rates for customs clearance
- Customs clearance and forwarding of ships spares
- A vast network of suppliers offering preferential rates for exports of spares
- Efficient and smooth transportation of ships spares between our offices in different ports

# CARGO DIVISION

We specialize in project cargo and heavy-lift cargo. Our wealth of knowledge of all bulk commodities, liquid bulk and bagged cargo that has assisted us to successfully collaborate with vessels masters, owners, shippers and charterers with regards to cargo discharge, re-stowing and cargo planning.

## WHY US?

- Specialized super-cargo personnel
- In-house specialized cargo surveyors
- In-house tally services
- Dedicated network of vendors offering customized rates ie: stevedores, tally, dunnage removal and crane hire
